

**Amendments to the Specification:**

Material to be inserted is in **bold and underline**, and material to be deleted is in ~~strikeout~~ and/or in [[double brackets]] if the deletion would be difficult to see.

Please replace the paragraph beginning at page 3, line 11, with the following rewritten paragraph(s):

“However, as part of the present invention, the bending device is also intended to be movable with respect to a background, in particular with respect to the robot. The at least one bending device can preferably be controlled manually and/or mechanically so as to move back and forth with respect to the robot on a cross slide, a track system, a linear system or the like **in a selectable direction or along a selectable guide system with respect to the position of the robot, as indicated in dashed lines at 12, the corresponding position coordinates being transferred to the robot 3, as indicated in dashed lines at 13.**”
